

Aditya Vikram Mahanta

📍 India ✉ adityavikrammahanta@gmail.com ☎ +91-6001912139 in Aditya Mahanta 📀 aditya-vm-123

Skills

Programming Languages: Python, Java, C/C++, SQL

Web Technologies: HTML, CSS, JavaScript

Additional Skills: AWS, PyTorch, Scikit-Learn, NumPy, Pandas, Matplotlib

Education

Vellore Institute of Technology

September 2022 – Present

B.Tech in Computer Science Engineering

Current CGPA: 9.21/10

Don Bosco School, Guwahati

2020 – 2022

CBSE Board

10th Percentage: 93.16%

12th Percentage: 92.5%

Projects

Plastic Detection in Urban Lakes [🔗](#)

- Developed a plastic detection system using object detection models like YOLOv8, YOLOv11, and FR-CNN.
- Incorporated data augmentation, preprocessing, post-processing, and passive fine-tuning pipelines.
- Designed a location mapping feature to visualize plastic accumulation on maps using Leaflet API.

Real-Time Sign Language Detection using Deep Learning

- Developed a real-time ASL alphabet recognition system using ResNet-50 and EfficientNet-B0.
- Achieved over 90% accuracy in real-time inference using a standard webcam and EfficientNet-B0.
- Applied Grad-CAM to visualize attention maps and analyze model interpretability.
- Compared both models across metrics like inference time, robustness, and resource efficiency.

Online Text Utility Application [🔗](#)

- An online text editing app.
- Can be used for editing and formatting text on the go.

Face Recognition using AWS Rekognition

- Built a face recognition system with AWS Rekognition.
- Returns the name and match percentage of the given person.

Certifications

- **AWS Cloud Practitioner** (AWS)
- **SQL for Data Science** (Coursera)
- **Complete AI & Machine Learning, Data Science Bootcamp** (Udemy)
